ECE Campus ERP — Faculty Login Details & Setup Guide

Prepared with respect by Nikhil Awadhwal (Student & ERP Lead) for our Respected Teachers

Respected HOD Ma'am & Respected Teachers,
Greetings! We students have built and launched the **ECE Campus ERP portal** (**https://ece-campus-erp-8qn9.vercel.app**) for our department. Through this portal, we students submit our event and hackathon certificates so you can easily review them and grant lecture attendance credits with a single click.

I have created active accounts for all of you below. We have set a temporary password **1234** for your initial login. **Respected teachers, please change this temporary password to your own private password after logging in** so your account remains safe and secure. On Page 2, I have explained the exact button to click to change your password in seconds.
